On-line Food Shopping

43% of people in Britain do an on-line shop at least once a month

What to think about? Is it right for me?

- Is it more expensive than shopping in person?
- Do all supermarkets charge for delivery?
- How much do they charge?
- Does the charge depend on how much you spend?
- Is there a minimum spend before you can get delivery?
- Supposing I'm not in when they deliver ? ? ? ?
